

1.3.2 Final Decision-Making Authority

The Director, ICAR-CMFRI is the final decision-making authority for all matters related to the Agricultural Technology Information Centre (ATIC).

While the ATIC Management Committee coordinated by the ATIC Manager, handles the planning, coordination, and execution of ATIC's day-to-day activities, all major decisions—particularly those related to policy, budget allocations, strategic programmes, infrastructure development, and institutional collaborations—are subject to the approval and final decision of the Director.

This centralized governance ensures that ATIC's activities are fully aligned with the overall mission, vision, and research priorities of ICAR-CMFRI.
